- One of the best TAs I've ever had, he was incredibly helpful and clear.
- Xavi is a good instructor. He knows his material pretty well and is always helpful during office hours. The one critique would be to be more prepared with what to go over during discussion, but he has figured it out towards the end. So overall, good experience.
- He's absolutely awesome! I went to most of his office hours and he was incredibly helpful. He explained the material thoroughly to make sure we understood the material. He had a lot of patience for his students and used his time effectively.
- No complaints. I can't think of anything that was negative. He's helpful and friendly so he was easy to approach.
- no comment
- One of the things I really liked about Xavier was how flexible he was in his schedule in meeting with me during office hours. The only thing I wish he could do better was maybe control the class time a little better and explain solutions to problems more simply.
- Great graduate student instructor. Very fair and kind when is approached for questions. Really helpful during discussion.
